Preface

This reference aid identifies personalities who hold key positions in the Cuban Communist Party; national, provincial and municipal governments; military organizations; selected mass, cultural and scientific organizations; and the diplomatic service.

The Directory of Officials of the Republic of Cuba is generally published yearly. Following this preface is a table of contents and a list of abbreviations. The table of contents is arranged to enable the consumer to find organizations more easily. It is not intended to show the exact organizational structure of the government.

Alphabetical indexes to organization and personality names are included at the end of the publication.

In the name index, the patronymic (surname) is immediately followed by the given name, and the matronymic (mother's name), if known, is placed in parentheses at the end. Duplicate names in the index usually refer to different individuals with the same name.

This publication supersedes LDA 87-12438, dated June 1987. Suggestions, corrections, and updating information are welcome.
